GERMANY TELLS OF CONSTITUTIONAL CHANGES MADE

AUSTRIANS ABANDON GUNS IN THEIR HURRIED RETREAT

NEW NOTE TELLS OF REICHSTAG POWER

DETAILS OF CHANGES SENT TO AMERICAN GOVERNMENT FOR ITS INFORMATION WILL BE SENT TO WAR COUNCIL

AUSTRIA APPEALS TO LANSING TO URGE PROMPT ACTION BY PRESIDENT

New Note Declares Emperor Charles and Austria-Hungarian People More Than Ever Wish an Early Cessation of Hostilities

Washington, Oct. 30.—Another note from the German government reached Washington today.

It supplements the last brief communication, saying armistice terms were awaited, by reciting in details governmental changes which have taken place in Germany as evidence that the kaiser has been deprived of all power of making war and negotiating peace.

This time the Germans do not address President Wilson, personally, but send the information for the American government apparently recognizing that the stage of personal appeals has passed with the transmission of their armistice and peace plea to the allies.

It reiterates that the actual powers and responsibility of the government have been transferred to the reichstag and describes progress of the necessary constitutional changes.

The note probably will be forwarded immediately to Paris where the supreme war council already is reported to have formulated terms upon which the United States and the allies might permit a cessation of hostilities.

As word of the new German move came, it was learned that President Wilson was working today on a reply to the last note from Vienna in which the Austrian government accepted all principles and conditions of the president and asked for an armistice and peace proposals.

The reply, which probably will be made public before night, is expected to inform the authorities at Vienna that on the basis of acceptance of all conditions, including actual independence and not mere autonomy for subject nationalities, their request has been referred to the governments with which the United States is associated.

EACH DAY THE EPIDEMIC LESSENS

State Which Controls Quarantine Is Considering Lifting Ban In Improved Districts.

Each day this week has been a lessening of the number of new cases of influenza being reported, but when Health Officer W. H. Knauss was asked today as to when the ban might be lifted he stated it was up to the state.

In a Columbus dispatch it is stated that there are continued indications of improvements in the Spanish influenza epidemic as shown by reports from local health authorities reaching the state health department today. These improved conditions have caused the state authorities to begin consideration of the lifting of quarantine regulations.

Leading State Health Commissioner Bauman announced today that a meeting of the advisory council of the state health department will meet tomorrow to consider methods of lifting the restrictions. The advisory council also is expected to determine when lifting of the restrictions will commence.

That there will be no general removal of the ban but a gradual lifting in the most improved communities and cities was indicated by Mr. Bauman.

Three local deaths were the only ones reported from the epidemic today. They were: Maggie Young, 28, 346 Stansberry street; Emma Pearl Uffner, 3 months old child of Mr. and Mrs. Arthur Uffner, 147 Cedar street; Mrs. Ora Hurley, 26 (colored), 229 Selos street.

MRS. WM. JASPER DIES IN COLUMBUS OF FLU

NEWARK MAN'S COMPANY FINDS WOMAN OPERATING MACHINE GUN

Comes Upon Hun Brutality In Its Worst Form In the St. Mihiel Drive—German "From Hoboken" Didn't Gain Sympathy From Lieutenant Jones' Men.

Germans surrendered easily to the Yankees in the drive which eliminated the St. Mihiel salient, according to a letter received by Mrs. Ellis Jones from her son, Lieutenant Richard Jones, of the 60th Infantry, which took part in the first all-American drive. Lieutenant Jones in his letter says two Yanks captured 150 Germans, and that it was nothing to see a private coming down the road burdened with Hun boots and helmets with a half dozen prisoners plodding along in front of him.

Lieut. Jones' company captured a woman who was operating a machine gun against the Americans. When made a prisoner she declared she was a Red Cross nurse but her story did not deceive the Yankee doughboys who saw her doing work with the machine gun.

AUSTRIANS WITHDRAW HEAVY GUNS ON PIAVE

Italian Headquarters on the Piave, Tuesday, Oct. 29.—Austrian forces are retreating under ever increasing pressure and it is felt that the attack against the enemy will become overwhelming as soon as the entire allied force can enter the action.

With three successive days of fair weather an extremely large body of troops, with supplies, has crossed the pontoons over the Piave. It is expected that the Austrian munition supply will give out. There are indications that the enemy's heavy artillery is being withdrawn in an effort to save the big guns.

The American Red Cross is preparing to assist the Italian population in towns evacuated by the Austrians. The majority of these people are old men and women and children. For 10 miles back from the river the country has been isolated. Only one house is left standing at Cinadolme.

TROOPS OF EMPEROR CHARLES RETIRE IN REGION EAST OF CONEGLIANO LEAVING MUCH WAR MATERIAL

FRENCH FORCES ARE CLOSING IN ON GUISE, EAST OF ST. QUENTIN

British Front is Quiet, Only Patrol Encounters Being Reported by Field Marshal Haig—Yankees Bring Down 18 Enemy Planes

Italian Headquarters on the Piave, Oct. 30.—Austro-Hungarian forces are retiring in the region east of Conegliano. They are leaving behind them scattered along the roads toward Vittorio, seven miles north of Conegliano and Sacile, further to the west, many big guns and munition wagons.

The capture of Conegliano by the Italians was important since that town is the center of five highways and also is situated on the railway. The city is being used as a supply station for the Italians.

From this city the Italians will be able to dominate not only the lower mountain region, but also the enemy troops on the lower Piave.

Large numbers of Italian cavalry already have crossed the Piave. The position of the enemy forces on the lower stream is becoming critical and they may be shut off. The taking of Conegliano was effected by Italian troops which crossed the Piave south of the Nervessa region Monday night in the face of an intense artillery fire. They cut their way through roads barred and blocked by barbed wire and machine guns.

The first troops to enter Conegliano were seven cyclists who were followed by the Como infantry brigade. The Italians were met by civilians waving Italian flags.

BRINGS 603 FROM ALASKAN TERRITORY

Seattle, Wash., Oct. 30.—With 603 passengers on board the largest number ever leaving Nome, Alaska, on one vessel, the Victoria, last steamer this season from the northern gold camp departed Monday night for Seattle, according to word received today. Special government permission had to be obtained for the vessel to increase her passenger carrying capacity because of the number of persons clamoring for passage.

COMMITTEE OPPOSES OHIO TAX AMENDMENT

Columbus, Oct. 30.—The committee appointed by Governor Cox to prepare an argument against the proposed constitutional amendment providing for the classification of property for taxation has submitted ten reasons why the amendment should be defeated.

Among other arguments, the committee contends that the amendment was proposed by "and is for the benefit of money lenders and security holders; that now is an inopportune time to force such legislation upon the general assembly in view of the need of revenue to pay ordinary expenses; and that it would raise the rate on real estate would be greatly increased."

GERARD MAKES APPEAL FOR DEM. CONGRESS

Washington, Oct. 30.—James W. Gerard, former ambassador to Germany, in a statement made public here today by the democratic national campaign committee said the Germans cannot understand the American political system and that a refusal of the country to sustain President Wilson with a democratic congress will convince Germany America is not with the president.

"COOTIE-PROOF" GARMENT BEING SHIPPED ABROAD

Washington, Oct. 30.—A trench un-department, chemically treated as a preventive against vermin, has been ordered by the war department and shipments in quantity overseas ordered expedited. The garments are being made in the laboratories at the State University at Iowa City.

FRENCH TROOPS ADVANCE

Paris, Oct. 30.—General Debeney's First army has gained new successes in the encircling of Guise, according to the official statement from the war office today.

North of Guise they have taken the Beaufort farm, north of the Oise, along the Peron river, south of Guise, the French have progressed east of Monceau-Le-Neuf and captured prisoners.

YANKEES TO FIGHT WITH ITALIANS

Italian Headquarters on the Piave, Oct. 29.—(Delayed)—Elements of the American expeditionary force in Italy who have been in reserve are now in readiness to take part in the fighting east of the Piave. The Americans probably will be brigaded with the Italians.

BRITISH CAPTURE PRISONERS

London, Oct. 30.—On the British front in France, Field Marshal Haig reported in his statement today there has been no activity except patrol encounters in which the British troops advanced and captured a few prisoners. The statement reads:

"Apart from patrol encounters in which we made progress and secured a few prisoners there is nothing to report."

ARTILLERY ACTION ON MEUSE

Washington, Oct. 30.—Heavy artillery and machine-gun fire north of Verdun, and the bringing down of 18 enemy airplanes, with failure of five American machines to return, as told in Associated Press dispatches last night, were reported by General Pershing in a communique of yesterday, received today by the war department.

RETIRE IN DISORDER

Washington, Oct. 30.—The Austrian army corps on the left wing has retired in disorder, leaving behind war material and several hundred guns, says an official dispatch from Rome to the Italian embassy here. The Sixth Austrian army corps is said to be in a very critical position engaged in heavy defensive fighting on the hills between Valbobbadiene and the Soligio river.

AUSTRIANS EVACUATING ALBANIAN TERRITORY

Vienna, Oct. 29, via London, Oct. 30.—Concerning operations in Albania and Serbia, Austro-Hungarian headquarters tonight issued this statement: "In Albania our rear guards have evacuated Alessio. There has been no change on the Drina front. In Serbia yesterday our troops who were not in fighting contact with the enemy, reached Valanka."

HUNS USE JUNK FOR SHRAPNEL

Newark Boy Writes of Part In Recent Big Drive—Gets 30 Days Rest Period.

Harry Flickinger writes his cousin, Catherine Cromer, 40 Bowers avenue, that he is back in a rest camp for 30 days after active service at the front. The Jerries are getting so desperate that they send scrap iron or anything to help kill across "No Man's Land." Part of his letter reads:

"At the present time I am well and in good health. We are at a rest camp and will be here for 20 or 30 days. We just came back from the front, where we were in active service. We were in some pretty tight places, especially out in 'No Man's Land,' where the shells and bullets play one continuous tune. We followed the infantry over the top one morning. We did not have much opposition for Jerry (as we call the Germans) had made a good retreat. We all came out without a single scratch except from old buried wire or a few bumps by falling in shell holes. I do not mind Jerry's rifle or machine gun bullets so much as his big shells, for when the bullets pass over one he knows it is not coming back from the rear and get him, like his shrapnel. He sends over all kinds of scrap iron—anything from pieces of a handcar to pieces of a locomotive, and what he gets in return must be something fierce, because for every one he sends over we send back five or six in return. Back where you are one cannot imagine what it is like. One does not fully realize the danger he is in until after it is all over.

"We get plenty of food and plenty of tobacco. Of course our sleeping quarters are not so good while in the trenches but we manage to get by and imagine we are on a good soft mattress or feather bed and after one gets to sleep he does not know the difference.

"My address is not the same as before. It is thus: M. G. Co., 119 Inf., via New York."

TO MOVE P. O. THURSDAY EVE.

Business In Old Location Will End With Day's Work on Thursday—Building Ready.

The business at the present post-office will be concluded on Thursday evening, October 31, after the office finishes its work for the day.

On Friday morning it will be resumed at the new federal building in East Main street which has been completed. It had been planned to have a formal opening and reception at the new building this evening, but the ban preventing public gatherings owing to influenza made the event impossible.

The employees have been working out of hours packing the necessary paraphernalia, but no equipment will be moved as the new building is completely equipped with everything necessary and up to date in the handling of mail.

ALLIED ARMIES PENETRATE LINE

Apparent Breach in Austrian Line East of Piave Lets Troops Through.

(Compiled from A. P. Dispatches.)

One year ago the Italian armies were streaming westward from the Isonzo with a great military disaster imminent. Today the Italians, with British and French divisions fighting with them and with American contingents in reserve, are pouring through what appears to be a breach in the Austrian lines east of the Piave river.

Valdobbiadene has been captured. Comeliano has been occupied and along a line stretching south to the Treviso-Oderzo railroad, the allies are moving steadily ahead. Prisoners numbering over 20,000 have been taken during the fighting.

Reports from the Piave front seem to indicate that, after the first rush of the allies, the Austrian resistance weakened greatly and there are indications that along the center of the line the enemy's defense has been crushed. The sweep of the allies eastward appears to have gained momentum during the past day and it seems probable that the next few days may see the whole Austrian army fronting the Piave in retreat toward the Tagliamento.

Not only are the Austrian lines yielding on the Piave front but further north and west the allies are reported to be advancing. The capture of Cogniano, the key of the Austrian position is considered a fatal blow to the enemy's plans to hold north of the line where the allied wedge has been driven deep into the Austrian lines.

Bitter fighting has been going on in the Meuse sector during the past day or two. East of the Meuse, the American forces have moved ahead once more and have wrested important positions from the Germans. West of the Meuse, the Germans have been heavily bombarding the American lines and back areas with gas and high explosive shells. American long-range artillery has been pounding the German supply lines at Comblains.

West of the Argonne forest, the French have begun an attack which seems to promise the turning of the Aisne line, which is the main obstacle to the French advance immediately west of the Argonne in the region of Vouziers. The new attack was over the front from Quentin-Le-Petit to Herpy, north of the Aisne and progress made

in the first few hours of the onslaught indicated that important results are within reach.

On the Oise-Serre front, the French are slowly tightening their hold on the line about Guise, while south of that town they are moving ahead in spite of desperate resistance on the part of the enemy.

In the neighborhood of Valenciennes the British are apparently checked for the moment at least, no significant progress having been made there during the past day or two. North of Valenciennes the French, British and Belgians have improved their lines but do not appear to have succeeded in breaking through the German defensive lines defending them.

The Versailles conference has, it is reported, agreed on the terms for an armistice and also on the final peace demands. It is said that they will be submitted simultaneously to the German government. London reports that the allied nations will demand the surrender of the German fleet, including all submarines and the occupation of all the fortified towns on the Rhine.

Internal conditions in Germany and Austria appear to be rapidly growing worse. Rioting, in which a large number of persons were killed, is reported from Leipzig. In Germany, the population is said to be in a panic. Banks are being stormed by depositors, it is reported.

It is reported from Washington that Wilson will be transmitted to the Versailles conference but no official statement on the subject has been made public.

DAYTON TESTIFIES IN WATERWORKS TRIAL

Carl Dayton, former superintendent of the American Bottle Company's plant here, was on the witness stand Wednesday morning in common pleas court giving testimony in the waterworks case, in which the bottle company asks an injunction against the city, restraining the superintendent of the waterworks department from shutting off the company's supply of water.

The case grows out of the use of water by the company for which it did not pay.

The testimony of a number of witnesses has been taken by deposition and other witnesses have been called by both sides. The hearing will extend over Tuesday.

In the company's petition, it admitted that the water had been used but declared that it was valued at only \$6,700.48. The company's petition also asked for an injunction against the city without the knowledge of the officials or executives of the company.

Mr. and Mrs. Elmer Richardson have sold their farm and expect to move from here in the near future. They will have their sale Friday, Nov. 1.

Mr. and Mrs. T. W. Fisk of near St. Louisville called on their son, Charles Fisk, and family Friday afternoon.

Mrs. Porter and daughters of Newark spent a few days last week with her son, I. N. Porter, and family.

Mr. and Mrs. William Fisk were given an old-fashioned belling at their home Tuesday night.

FOREIGN MINISTER, REPRESENTING (?)

Count Julius Andrássy. "Count Andrássy may be a foreign minister, but whom does he represent?" the Paris papers are asking. He is supposed to represent Austria-Hungary, and in this capacity has sent a note to the Washington government, according to Wilson's peace terms. The Paris papers point out, however, that the dismemberment of Austria-Hungary is already taking place, and that he cannot speak for the Czech-Slovaks and other races that have broken away from the dual empire.

WILL MAKE 2000 KETTLES A DAY

Monster Steel Press at Wehrle Plant, Makes Pots For Army Field Kitchens.

The Wehrle plant of this city has received several large war orders and is now completing the installation of special machinery to manufacture the munitions.

Superintendent George Pickup showed an Advocate representative today through the special building which has been remodeled for the manufacture of army kettles. A toggle drawing press, weighing 350,000 pounds, has been erected on a concrete foundation built 15 feet into the ground. This is one of the largest presses built and its working is marvelous. Superintendent Pickup had the expert workmen start it and then explained how it pressed out the steel for the kettles. It is capable of pressing out six 17-pound kettles per minute. The company will endeavor to turn out 2000 a day. There will be three shifts of men who will work eight hours each. The first carload of steel from the government arrived yesterday and from now on will be received at a rapid rate.

The building where these kettles are manufactured is hundreds of feet in length and the steel is unloaded at one end from the cars, wheeled to the press and rolling machines, and then starts on its journey through the building. After coming from the dies in the mammoth press it is sent into one room and there the kettles go through the cleaning tanks—first taking a dip in a solution of caustic soda. They are next drenched in water; then dipped in drizzling in acid, and are again given a drenching in water. The next treatment is a bath in muriatic acid and then they are ready for the hot tin tanks, where they receive a coating of tin, both inside and out, and then the insert is placed in the kettle and from there they are sent on to the cleaning and shipping room and all are loaded in cars inside the big plant.

Over one ton of tin a day is used in the manufacture of the army kettles, costing \$100 a ton. The contract involves the expenditure of hundreds of thousands of dollars.

On the opposite side of the building where the kettles are manufactured, scores of workmen are engaged in assembling and crating big army ranges weighing 125 pounds. The company has one of the largest contracts for ranges ever given by the government, and the Messrs. Wehrle have agreed to deliver 100 of them per day.

Superintendent Pickup stated today that they are turning them out at the rate stated and hoped to increase the output as more men are put at work. Hundreds of these ranges are being boxed in solid oak boxes and all were marked for a Pacific port. That means that the ranges are going through to Siberia and the Ukraine country. Government representatives are at the plant inspecting every range and in a few days more inspectors will be here to inspect all work turned out.

But the contracts do not stop here, for hundreds of field grates; in fact, thousands upon thousands, will be turned out to be used by the allied armies when on the move. These grates are so constructed that they can be built, or rather laid, upon raised foundations of brick or iron and upon these the army cooks will turn out the hot food for the soldiers.

The big contract, however, for the government is its incentive—the manufacture of the 75 M shells. The Wehrle plant will soon be engaged in manufacturing these shells.

Superintendent Pickup stated today that he can use skilled and unskilled mechanics. The work will be all inside work and pleasant and profitable. Newark will soon be classed in the big war order work.

"SPEED UP" IS TO BE THE PROGRAM WHEN SCHOOL OPENS

The date for opening the Newark schools has not as yet been fixed, but it seems probable that the schools will resume their daily sessions sometime in November, probably the middle of the month.

More time is to be put on essentials and less time on less essentials so that the pupils may accomplish in 34 weeks what they have been doing in 35 weeks.

Superintendent D. J. Barnes said this morning: "Many people have said to me during the past two weeks, 'How unfortunate it is to have the schools closed.' 'Yes, it is unfortunate, but the epidemic is more so. The loss of a month of school is a serious matter, but there are compensations for the loss. While the time will probably not be made up, the work will be made up. Herein is one great compensation. Teachers and pupils will be obliged to accomplish what they have been doing in thirty-eight weeks. This means more time on essentials, less time on non-essentials. The schools will have to classify material into essential and non-essential just the same as the government is doing with industries today. The school patrons need not fear but that their children will be taken care of this year just as well as heretofore, providing the schools can re-open within a reasonable time.

"Furthermore, when schools re-open every pupil will know he must get down to business. No loafing will be tolerated this year.

"The time out of school has not been wasted by these children, for they have been reading books and newspapers; many have been working at profitable employment, and all surely have had a lesson in sanitation, cleanliness, pure air, and right conditions of living that could not have been learned in books.

"I want the school patrons to feel that when the schools re-open, plans will be put into operation that will insure the success of the school year. I sincerely hope that no boy or girl above the school age will fail to return to school, for there is no substitute for a good education."

LONG RUN

No announcements can be made yet as to when church service will resume here.

Miss Jessie Balle has returned home after a visit with friends at St. Louisville.

Mr. and Mrs. T. T. Gault and daughter Bernice attended the funeral of Mrs. James Gault at Black Hand Wednesday.

Blanch Baker is sick with scarlet fever.

Mr. and Mrs. John Miller and children of Newark came out to Charles Nesbit's Friday evening.

Most of the schools of this vicinity are closed.

WHY RUN-DOWN PALE EXHAUSTED WOMEN SHOULD TAKE IRON

"There can be no beautiful, healthy, well-checked, steady career without iron. Without the iron goes from the blood of women, the roses on their cheeks, their charm and attractiveness depart. I always insist that my patients take organic iron—Nuxated Iron—not metallic iron which often corrodes the stomach and does more harm than good. Nuxated Iron is easily assimilated, does not cause indigestion, the teeth nor upset the stomach. It will increase the strength and endurance of weak, nervous, irritable, careworn, haggard women in two weeks' time in many cases. I have used it in my own practice with most surprising results."—Ferdinand King, M. D., well-known New York Physician and medical author. QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and celebrated medicine expert, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid liver.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force than to unnatural action.

If you have a "dark brown mouth" now and then a bad breath, a dull, tired feeling, sick headache, torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 30c and 50c per box. All druggists.

WELD SEVEN WAR WORK AGENCIES INTO RELIEF ARMY

Great Organizations Which Are Helping to Keep Up the Morale of Fighting Millions Unite in Campaign for \$170,500,000.

Women all over the world realize more and more that their work at home will help the men at the front. It involves great sacrifices, hard work and unusual physical strength. Women at home should study nursing for war and for the home. A good way to learn is to ask your druggist for a copy or send 50c to publishers of the "Medical Adviser," 603 Main St., Buffalo, N. Y., and get a copy of their 1,000 page book bound in cloth, with chapters on First Aid, Taking Care of the Sick or Wounded, Physiology, Hygiene, Anatomy, Sex Problems, Mother and Babe. Nobody, man or woman, can do good work when health is impaired. If a woman is nervous or has dizzy spells, suffers from awful pains at regular or irregular intervals she should turn to a tonic made up of herbs, and without alcohol, which makes weak women strong and sick women well. It is Dr. Pierce's Favorite Prescription. Send Dr. Pierce, Buffalo, N. Y., 10 cents for trial package.

With millions of American men on war fronts, in training camps and on the seas and with thousands of American women on foreign soil, all engaged in the stupendous task of making the world safe for democracy, a great duty devolves upon those who remain in the United States—the duty of sending home to those who have put home behind them for the period of the war. The agencies through which this can be accomplished are joined in the United War Work Campaign.

From being given the cigarette or chocolate bar, with which he stays his hunger in the fury of battle, to the theatrical entertainment or the athletic games, which relax him into normal comfort after weeks of terrific combat, the American fighter is dependent upon the continued efforts of the Y. M. C. A., the Y. W. C. A., the National Catholic War Council, and K. of C., the War Camp Community Service, the Jewish Welfare Board, the American Library Association and the Salvation Army. To carry on this work the combined welfare organizations are seeking a fund of \$170,500,000.

The Y. M. C. A. provides 538 huts in American training camps and more than 800 in the war zone as centers, which the fighters can use as clubs, schools, theatres, stores, churches, libraries and writing rooms. More than 7,000 men and women had been sent overseas or approved for overseas work by early autumn and 3,822 were serving in American camps at home.

Y. M. C. A. huts are the cauldrons of the American Expeditionary Force and are the theatres where the American entertainers, sent over by the "Y," appear. Noted American public men and clergymen speak in the huts. Classes are conducted there. Millions of letters are written there on paper provided free by the "Y." Physical directors of the "Y" teach and spread mass athletics, using material furnished free by the organization.

The Y. W. C. A. does similar work for the thousands of American women in war work overseas—signal corps telephone operators, nurses and French munition workers. It provides cafeterias, rest and recreation centres, entertainment and reading for these women and girls.

The Y. W. C. A.'s outstanding contribution to soldier welfare work in training camps was the establishment of Hostess Houses, where the soldier or sailor may receive his mother, wife, sister or sweetheart in the surroundings and atmosphere of the best homes.

The National Catholic War Council co-ordinates all Catholic welfare work in support of the government and through the K. of C. provides club-houses for our fighters in all American training camps, as well as having seventy-five centres in France and three in England. In their huts the K. of C. provides entertainment, movies, boxing bouts, educational work, religious services, free stationery, reading matter and writing rooms. In France their rolling canteen accompanies the American army, their secretaries march with the troops, giving away cigarettes, cookies, chocolates, soap and towels.

The K. of C. had 800 workers in France at the beginning of autumn, with 450 more passed by the government and 200 others signed up. At the same date they had 468 secretaries in American training camps, 150 buildings, fifty-six more in the course of erection and contracts let for fifty more.

War Camp Community Service functions exclusively in America, its special mission being to "surround the camps with hospitality." In place of leaving the soldier or sailor to the promiscuous companions and diversions formerly his lot, the organization obtains for him the best to be had in communities adjoining camps or through which he passes.

W. C. C. S. obtains for him invitations to dine, bathe or spend the day in the best homes. It introduces him to the best women and girls at social gatherings, church entertainments, theatre parties. It arouses communities to provide concerts, athletic contests and other wholesome diversions for the soldier, and to drive out or discourage the vicious elements which have been historic camp followers.

The Jewish Welfare Board is correlating the strength and purposes of 100,000 Jewish soldiers, sailors and marines with that of the Gentile soldiers. The board teaches the English language, American civics and ideals to thousands of young Jewish men who were inducted into service after only a few years' residence in this country. While safeguarding his religious rites, the board assists in the process of welding the Jewish soldier into the solid American unit and in bridging over the differences between him and the others.

The American Library Association is providing reading matter for every American soldier, sailor, marine and prisoner of war.

When it comes to stacking up against kings and queens Uncle Sam is an ace.

COLONEL HOUSE TAKES PLACE NEAR WAR OFFICE

PARIS, Oct. 30.—Colonel E. M. House, special representative of the United States government to the European government, has taken a house in the quiet quarter of Paris on the left bank of the Seine not far from the French minister of war. He has already had conversations of considerable length with Premier Clemenceau, Field Marshal Haig, Viscount Milner, British Secretary of State, William Graves, American Ambassador to France, Premier Venizelos of Greece and General Tasker H. Bliss, American representative to the supreme council.

The precise information in possession of Colonel House relative to the European situation, rather amazing to those on this side of the Atlantic, they have not been aware that Colonel House, as head of a bureau at Washington, has been receiving for eight months the results of original study from many sources of conditions in every belligerent country in Europe.

CAPTURES ENEMY ANTI-TANK GUN

Licking County Soldier Sends Major's Receipt for Weapon Captured During American Attack.

Sitting in his army truck, beside a German graveyard Corporal Jos. Handley, of Company A, third supply train, writes an interesting letter to his uncle, M. Handley of Jacksonville. He enclosed in the letter a receipt signed by Major Theodore K. Spencer, of the headquarters of the third division, second section, for a German anti-tank rifle which he had captured and turned in.

In his letter Corporal Handley says "While I am waiting for a new tire for my truck will have time to answer your letter. It is raining and turning colder. I am writing this in my truck which is beside a German graveyard. The Germans are retreating everywhere now and are leaving much ammunition and supplies behind and in places they do not have time to blow up the bridges."

"I got a German anti-tank gun and turned it in. I will send you the receipt. I would like to have had the gun for a souvenir but we have not had any time to bother with souvenirs besides we are supposed to turn everything in."

"This country is torn all to pieces and it will take years to make it fit for farming. The fields are full of shell holes, trenches and barbed wire and some of the towns have no homes left standing. But they are paying dearly for the hell they have raised and will continue to pay for years to come."

Corp. Handley formerly lived in Newark for a number of years.

W. S. S. PRICE IS TO ADVANCE DAY AFTER TOMORROW

Licking county which has oversubscribed the First, Second, Third and Fourth Liberty Loans will score another victory this week by completing its quota of War Savings Stamps more than two months ahead of schedule time.

Partial reports of W. S. S. sales made this week by the banks and postoffices indicate very clearly that Licking will be put "over the top" by this week's purchases. Nearly all of the banks are reporting brisk buying and the Newark postoffice today reports that yesterday's W. S. S. cash business amounted to \$5,333.70. At the close of business on October 24, the sale of \$13,350 worth of stamps was needed to complete the year's allotment.

W. E. Wells, 121 South Pine street is entitled to a place on the Victory List, having bought 200 W. S. S. Tomorrow will be the last day upon which stamps may be bought at 4.21. On November 1st the price advances to \$4.22.

Bankers and postmasters are requested to make a prompt report to the county chairman at the close of business tomorrow on sales made during the week ending October 31.

It is close race between Licking and Carroll counties for 25th place in the Ohio Victory List. To date 25 of Ohio's 88 counties have sold their year's allotment of War Savings Stamps.

While this county "goes over the top" this week it should be remembered that the postoffices, mailcarriers and the banks will continue to sell stamps and that everybody is expected to fulfill his or her W. S. S. pledge. The sale of War Stamps is to be continued next year.

ADDS FIVE MILLIONS TO WAR WORK QUOTA

COLUMBUS, Oct. 30.—Ohio's quota in the big United War Work campaign to be held during the week of November 11 to 15 has been increased from \$10,500,000 to \$15,500,000.

M'FARLAND HIT IN TWO BATTLES

Former Newark Man, Lieu- tenant in Regular Army, Owes Debt To Enemy Troops.

When an American soldier is wounded, he has time to write, if he doesn't feel too badly, in fact that is about all he has to do after he finishes counting the stripes in the wall paper on the room of his hospital ward. Lieutenant J. W. McFarland, a former Newark boy and a nephew of John McFarland of West Main street has been in just that fix. He was too busy after reaching France until he was "pretty" well shot up by the boche of Sept. 12. He then took that opportunity to catch up with his neglected correspondence.

McFarland formerly carried papers for the Advocate but he jumped right into the war when it started and he is now a lieutenant with the 16th U. S. infantry. His letter says:

"As this is about the only chance I have had since coming to France, I will drop you a few lines. You see I was pretty well shot up by the boche Sept. 12 and at present I have nothing to do but lie in bed and count the stripes in the wall paper. However, I went through the four big fights this summer before they got me good and believe me as soon as I get back to my regiment I sure am going to make some of those Hun pay up for some of my sleepless nights."

"This makes the second time I have been wounded but in their first attempt they made a poor job of it. I was only off duty a few days. I expect to be back with my regiment by Nov. 1."

"I have had my own company ever since I came over here and I sure am some and I never yet have any of them show fear. Although my company is an outfit of regulars, quite a few of them are from Ohio. I have one Newark boy, two from Columbus and several from the small towns around here."

"HURRY!" IS APPEAL MADE BY AUSTRIANS

VIENNA (via Basel), Oct. 30.—The new note just sent by the new foreign minister, Count Andrássy, to Secretary of State Lansing at Washington, follows:

"Immediately after having taken direction of the ministry of foreign affairs and after the dispatch of the official answer to your note of October 15, 1918, my government was able to assure that we accept all the points and principles laid down by President Wilson in his various declarations and are in complete accord with the efforts of President Wilson to prevent future wars and to create a league of nations, we have taken preliminary measures in order that Austrians and Hungarians may be able, according to their own desire and without being in any way hindered, to make a decision as to their future organization and to rule it."

"Since the accession to power of Emperor King Charles his immovable purpose has been to bring all end to the war. More than ever this is the desire of the sovereign of all the Austro-Hungarian peoples who acknowledge that their future destiny can only be accomplished in a peaceful world, freed from all disturbances, privations and sorrows of war."

"This is why I address you directly, Mr. Secretary of State, praying that you will have the goodness to intervene with the president of the United States in the interest of humanity in the interest of all those who live in Austria-Hungary, an immediate armistice may be concluded on all fronts and for an overtone that immediate negotiations for peace will follow."

PARIS, Oct. 30.—The second note of Count Julius Andrássy, the Austro-Hungarian foreign minister, to President Wilson is interpreted as evidence that Austria is in a desperate plight and has exhausted her powers of resistance.

"The Austro-Hungarian monarchy is an issue all the more promptly because it knows of the anger aroused across the Rhine by its defection and the desire of vengeance which inspires the Berlin cabinet," says the Petit Parisien and other newspapers.

Other writers strike a note of caution. "It is essential that entente troops have every latitude in occupying regions the inhabitants of which expect from us the fulfillment of solemn promises. It is essential that in the event of Germany not accepting our conditions for an armistice, the territory of the monarchy shall not constitute an obstacle to our military operations," says the Matin.

Lieutenant Colonel de Thomassin in the Petit Journal, says:

"Proposals for an armistice, presented separately by Germany and Austria-Hungary, place the allied governments in the presence of a delicate problem. We must decide to which of the two powers we shall first state our conditions. The solution which is adopted will evidently not modify the issue of the war but may have the effect of lengthening hostilities."

WOMEN OF OHIO URGED TO HELP

Their Aid Sought in United War Work Campaign.

DRIVE BEGINS NOVEMBER 11

Organizations Taking the Place of Home in the Lives of Buckeye Boys Over There and in Cantonments in This Country Must Be Backed to the Limit—Seven Widely Known Women Issue an Appeal to Their Sisters.

Dayton, O.—(Special.)—The seven most widely known women of Ohio joined in a call on all women of the state to push the United War Work Campaign of Nov. 11 to '18 "over the top." The organizations taking the place of home in the lives of our Ohio boys over there must be backed to the limit, they say.

The appeal is issued by Mrs. James M. Cox of Dayton, Miss Belle Sherwin of Columbus, head of the women's committee of the State Council of National Defense, Mrs. Prentice E. Rood of Toledo, president of the Ohio Federation of Women's Clubs; Mrs. William Cooper Proctor of Cincinnati, chairman of the Y. W. C. A. executive committee for Ohio and West Virginia; Mrs. F. F. Prentiss of Cleveland, and Mrs. Frank A. Seiberling of Akron.

"The people of Ohio are to be congratulated that in this state, as in all states of the Union, the organizations looking after the welfare of the soldier abroad and strengthening the second line of defense at home will hold a joint money drive. When the Y. M. C. A., Y. W. C. A., the National Catholic War Council, the War Camp Community Service, the Jewish Welfare Board, the American Library Association and the Salvation Army came together in a united campaign for \$170,500,000 they made a practical and patriotic move, heartily endorsed by the women of Ohio, they declare.

A Woman's Advisory Council, embracing women of all religions and employments and representative both of industry and capital, is being formed under the chairmanship of Mrs. C. A. Grasselli of Cleveland. Miss Elizabeth Hyatt is director of the women's campaign. The Council will put before every woman of the state the facts of this \$170,500,000 campaign which is to bring the good cheer of Ohio homes into the camps of France and Italy and Siberia, where boys, many of them from the Buckeye state, are fighting for democracy. Leaders of the campaign will point out this fund means less than a dollar a year for entertainment of the men of the army and navy.

"The women are going to be prime factors in the drive," F. W. Ramsey, state campaign director, said today. "We're counting on mothers and sisters and sweethearts, as well as fathers and brothers and good pals."

The Women's Advisory Council will take no part in money solicitation. State campaign officials, however, recommend that at least one woman's team be formed in each community and a certain part of the solicitation campaign turned over to it. These teams are usually of 10 members, and if the experience of Liberty Loans follows, the women's teams will spell pep.

Another job before the woman's Advisory Committee is to mother and big-sister the "Victory Girls." Girls between 12 and 20 years old will be asked to earn and give to the campaign. The money must be the result of their own work and can not be solicited. The usual gift will be \$5, which, it is reckoned, will supply a soldier over there with all the comforts of the seven organizations for five weeks. The women of the state will naturally have a responsibility, in what their daughters accomplish.

While the Y. W. C. A. is the only woman's organization recognized by the government in war work overseas, each of the other six organizations in the drive has women's committees and is backed by women's strength. At a meeting of the War Work Council of the Y. W. C. A. in Chicago last month John R. Mott requested an outline for mobilizing the entire womanhood of the nation in the drive. Six women from the Jewish Welfare Board, three from the War Camp Community Service, eight from the National Catholic War Council, eight from the Salvation Army and one from the American Library Association, together with Y. M. C. A. delegates, determined upon general enlistment of all women under state advisory committees representing each of the seven organizations.

The organization already set up by the Y. W. C. A. will be used in each county of the state, and Y. W. C. A. representatives on county executive committees will broaden their work to become representatives of all women of the county.

The only woman on the National Executive Committee, Mrs. Henry P. Davidson, declares that nationally Jewish, Catholic and Protestant women are working eagerly, together, and the same result is rapidly being accomplished in Ohio.

Newport, R. I. Secretary Daniels says navy we now have is but a foundation for larger navy.

ABOUT PEOPLE

Miss Zanfroy Floyd is seriously ill at her home, 93 East Church street, with influenza.

Mrs. Charles Kent of the National Drive, has returned to her home after a pleasant visit with her son, B. F. Kent and family in Chicago.

Mrs. H. T. Hilliard, formerly of Lima, is the guest of her parents, Mr. and Mrs. Walter Harrison, East Main street. She is en route to Richmond, Va., where she will make her home.

Rev. C. E. Stucky of 27 South Pine street is very ill with influenza.

BOY JUMPS FROM GIRDER OF BRIDGE

Climbing Over Top of Wilson Street Structure, Comes in Contact With Live Wire.

Last night at 7:30 an automobile party crossing the Wilson street bridge, was halted by a little boy, telling them another boy had fallen from the top of the bridge. They picked up the little fellow, who gave his name as Leslie Sanderson, 11 years old, and living at 157 South Pine street, and brought him to Dr. McClure's office where it was found he had broken his left arm just above the wrist and fractured a rib. He said he was climbing over the top of the bridge when he came into contact with a live wire, and jumped to the floor of the bridge. One hand and fingers were badly burned. He was taken to his home.

DRAFT BOARD FINISHES CLASSIFICATION WORK

The work of classifying the men who registered September 15, has been completed by the local draft board. As soon as the clerical work involved in the physical examination.

No estimate as to the number of members available for examination in Class I, could be obtained. Walter Symons, member of the draft board is still confined to his home by illness.

Official notification of the arrival at Camp Taylor of Ray Martin of this city has been received by the board. John Critch, who enters the service under competent orders as a limited service man, leaves this evening at 5:15 o'clock for Washington, D. C. He reports to the chief of ordnance, Engineering Section.

Milady's Boudoir

Nightly Beauty Rules.

The well groomed business woman you meet in the car or train each morning is the woman spent a few minutes the night previous in the preparation of her daily toilet. Where the rising hour is an early one the business woman cannot afford to make a leisurely toilet. A few little attentions to oneself in the evening will mean much toward the morning catching of the train.

One of two habits a woman at night should be varied by those of tepid as well as hot temperature. From five to ten minutes is sufficient for the daily bath. Where a tub is not desired, a sponge off in tepid salt water is suggested. This followed by a short alcohol rub, prevents one from taking cold. A brisk rubbing should follow all baths to keep the blood in circulation.

Sometimes a bath at night is found too relaxing or too exhilarating and a woman must determine this in accordance with its effect upon her. While massaging the face one may rest the roots of the hair at the same time by taking out the pins and shaking the hair over the shoulders.

Under no circumstances, unless illness, should a woman retire without washing or creaming her face. This is especially good advice where powder or rouge is used for, when these are permitted to remain they clog the pores and encourage pimples.

Cleanse the face, neck, arms and hands with your favorite soap or prepared meal. The amount of soil or grime that it is possible to accumulate in a single day is surprising, especially when part of the time is spent in the city or traveling in trains.

ALBERT HARRIS DIES IN HOSPITAL

Son of Former Resident of Granville Succumbs After Week's Illness of Pneumonia.

Granville, O., Oct. 30.—Mr. and Mrs. Eliza Bolter received word Tuesday of the death of their nephew, Albert Harris 19 of Columbus, at 8:45 a. m. The young man, who is well known in Granville, is the only son of Mr. and Mrs. Charles Harris, who formerly resided at 101 Maple street. He was taken ill a week ago and on Monday was removed to Grant hospital, Columbus, for special treatment for pneumonia, but without avail. He is survived by his parents and two sisters—Mrs. Clive Williams, formerly Miss Nina Harris, and Miss Veda, of the home. Mr. Harris came to Granville to arrange for the funeral service in Maple Grove cemetery. Thursday morning at 9 o'clock, Mr. Harris, her self a victim of the influenza, is unable to accompany the family.

By special permission of the health officer, Dr. C. J. Lovless, half a dozen women of the A. E. F. W. in sound health, meet at headquarters to sew for emergency calls from overseas. Mrs. Briggs presented a letter from Paris headquarters stating that supplies of all kinds are needed as never before; that every victory, however brilliant, means more wounded men for the hospitals; more widows and orphans to be relieved, and that if the war ceased, day such need will continue for months to come.

Mr. and Mrs. James A. Huston, who built their home, "Wickenholm," on the beautiful site of old "Cedar Hill College," on the Columbus road have three sons in their service flag for the enlistment into the army of their son and two sons-in-law—James A. Huston, Jr., a Princeton graduate, is an ensign in the navy; John Huston, Jr., a Yale graduate, is an instructor in machine guns at Raritan arsenal, New Jersey, and Lieutenant Henry E. Huston, a Harvard graduate, is in the ordnance department, testing heavy guns at Aberdeen proving grounds, Maryland. Mrs. Huston is with her parents in Memphis, Tenn. Mrs. Bartlett and Mrs. Eaton have taken a cottage at Bryn Mawr, Pa., for the winter. Mrs. Eaton is about to leave for the camps of their husbands who thus can have Sundays with their families.

Dr. C. J. Rose who is working with the State Dry Federation, has his headquarters in Mt. Vernon and spends Sunday days in Granville.

Rev. Mr. Singler, formerly pastor of the English-speaking church in Rangoon, Burma, has moved to Granville with his family from Pittsburgh, Pa., and will live in the Thresher cottage in Burr street.

Mrs. George M. McKibben announces that one class of 20 members in nurses' training, has been enrolled and that Mrs. Ray will instruct a second class of 20 members in separate days on evenings. Those desiring to take this course will do well to phone Mrs. McKibben.

Mrs. McKibben has received news of the death of an intimate friend, Miss Cordelia Lauman, of Columbus, from double pneumonia.

Mrs. K. H. Eschman with her two little daughters, has returned from a visit with her parents in Dresden.

A request comes from military headquarters that those who have magazines and books for the soldiers in the Denison hospital will leave them at Cordons restaurant, Broadway.

James Webb, horseman, who has been ill for two weeks with the "flu," is able to walk out.

K. E. Eschman, who attended the convention of song-leaders in Columbus, last week, under the auspices of the war department, is enthusiastic over the outlook. He has a collection of 55 war songs, and in addition he has the hand-arrangements for these songs. When he will at once put in rehearsal. When these are perfected he will have the basis for some real community singing, which shall be second to none. The night of song-leaders was held last night with really surprising results.

The schedule for public recitals this fall in Recital hall has been badly disarranged, although the students' recitals go on without interruption just as the graduation college carries on all department of work, entirely free from the epidemic.

The new \$2000 Dreyer organ, which is to be used entirely for practice purposes, has arrived and will be set up at Shepherdson's organ shop. This is an up-to-date modern instrument with electric attachments and improvements.

Miss Evangeline Davies is spending her vacation with her mother, Mrs. D. D. Davies, North Pearl street.

Miss Julia Rogers is in Granville visiting during the period of the Dr. and Mrs. Daniel Rogers.

Four Denison men left today for Camp Taylor, Louisville, Ky., for individual induction into military service—George Bowman, Stanley S. Bush, George Wolfe and Alfred Johnson. All these men with the exception of Wolfe, who is still a student here, graduated from Denison in 1912.

Mrs. Lee Moore is visiting Mrs. T. M. Williams, West Broadway. Lieutenant Moore is with the army overseas.

Miss Bernice Brown is one of the victims of influenza at her home in East College street.

Major Herriek of Washington, D. C. formerly known as Dr. C. J. Herriek, departmental head in Denison university and later of the University of Chicago, writes a Granville friend that he has been fortunate in securing a house for himself and family at 4018 Fifth street N. W., Washington, D. C. where he is comfortably installed. An item of interest in the letter was to the effect that his daughter, Miss Ruth Herriek, has joined the army, having been appointed laboratory assistant in the Walter Reed hospital in the city.

Mrs. Herriek was Miss Mary Talbot, daughter of a former president of Denison.

NEIGHBORS HARVEST SICK MAN'S CROPS

Thomas Vanatta, a farmer living near Granville, fell from a tree several months ago and broke his leg. He was brought here to the City Hospital and taken to the home of his sister, Mrs. Fred Scarborough of North Fourth street, where he has been for the past seven weeks. Last Saturday he was taken to his home.

In the meantime his good neighbors and the neighbors of his sister, Mrs. Scarborough, had taken together and put in his crops, harvested and kept everything running in line order about his place. He expressed his gratitude for the work of his friends and neighbors.

Our Boys and Girls

For a party of small tots, trim the table with wee tapers about as long as your little finger, or candles the size used for lighting Christmas trees. Also put them on cake in rosebud holders or around it in a circle made from a barrel hoop. Perhaps you can buy the already prepared candle holders or circles for birthday cake.

Serve chicken sandwiches, graham wafers, animal cookies, ice cream, and have cake, either angel food or sunshine. Peppermint candy will be best and the kiddies will love the paper caps that come with the snapping motto favors. If you have a regular lunch- con I think a cream soup with lamb chops, green peas, nut bread, a fruit salad and coffee for the mothers, with mugs of milk for the babies would be nice.

How To Avoid INFLUENZA

Nothing you can do will so effectively protect you against the influenza or grippe epidemic as keeping your organs of digestion and elimination active and your system free from poisonous accumulations.

Doctors and health authorities everywhere are warning people of the danger of constipation, and advising, and urging everyone to see that the bowels and other eliminative organs act freely and regularly.

Ordinary laxatives, purges and cathartics, salts, oils, calomel and the like, are good enough to clean out the system, but do not strengthen the weakened organs; they do not build up vitality.

Why don't you begin right today to overcome constipation and get your system in such shape that you can feel reasonably sure of resisting disease. You can do so if you will just get a 25c. box of Nature's Remedy (NR Tablets) and take one each night for a while.

NR Tablets do much more than merely cause pleasant, easy bowel action. This medicine acts upon the digestive as well as eliminative organs, promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleansing out. This accomplished you will not have to take medicine every day. An occasional NR Tablet will keep your body in condition and you can always feel your best. Sold and recommended by druggists.

BRYAN FOR SHERIFF

E. A. Bryan, Democratic candidate for Sheriff of Licking county, has been and still is confined to his home by an attack of inflammatory rheumatism. His condition is rapidly improving and he will soon be out, but his illness has prevented him from making a personal canvass. Mr. Bryan is a charter member of the Street and Electric Railway Employees' Union. He is competent, accommodating, and is well qualified to serve as Sheriff of Licking county. He regrets his inability to visit the voters personally, owing to illness, this week, but will greatly appreciate the support and influence given him by the voters next Tuesday, Nov. 5.

STAND BY WILSON, EX-GOVERNOR URGES

Democratic Congress Essential In Support of Administration, Says Judson Harmon.

GIVE ENEMY NO COMFORT

Issues Statement, in Lieu of Public Speech, in Which He Declares Europe Would Interpret Defeat of Democratic Candidates as Blow at Administration.

Columbus, Oct. 29. (Special)—

Former Governor Judson Harmon last night issued, in the form of a statement, the manuscript of an address the delivery of which was prevented by the influenza epidemic.

Ex-Governor Harmon confined himself entirely to the necessity of upholding the hands of President Wilson by the election of a Democratic congress that will give the president the fullest support and which will serve as a message to all the world that the people of the United States stand staunchly behind their government, exemplified by the president, in its determination to win the war and win it completely.

State Questions Covered.

The former governor said that he already had covered the state questions in his speech at Greenville and that he deemed it unnecessary in this statement to dwell upon this point for the reason that every proposition that was advanced in the Greenville speech has remained unanswered either by the Republican candidate for governor himself or by any responsible spokesman for him.

"Many patriotic citizens think it unfortunate that a congressional election must occur while the country is engaged in war, said the former governor's statement. It continued:

"Our comrade nations, even the best informed among them, understand American politics but dimly. America is to them the late coming but the steadfast and the strongest champion of the common cause.

Unlike the other departments of our government, the executive is embodied in one man, who controls the active force of the nation. Fortunately, indeed, are we in our chief executive, and proud that he has come to stand, by common consent, foremost among the great men who are bearing the tremendous responsibilities of leadership of people who are suffering and struggling for the most precious rights and mankind.

"Not the Man—the President."

It is not the man Woodrow Wilson who holds this foremost place in the eyes of the world, high and nobly besetting though his personal qualities are. It is the President, bearing the commission of more than a hundred millions of freemen to express and enforce their will. To give reason for doubt whether they really approve his course is to dim America's prestige and weaken her power in council and on the fields of battle. Everybody who sees straight agrees that the question which dwarfs all other questions in this election is this: Do the American people stand staunchly behind their government in its determination to win the war and win it completely?

In numerous ways the answer has already been forecast. Those who have sent their kinsman to battle, who have given and loaned money to the government in amounts unheard of in the history of the world, who have generously maintained the many unofficial activities on behalf of our armies, and who have cheerfully endured discomfort, inconvenience, interference and sometimes deprivation, these surely will not strike all this barren by their votes.

But our government is conducted through political parties, and this makes possible a result of the election which would spread dismay among our comrade nations, slacken the step and chill the ardor of our soldiers, and revive the fading hopes of our enemies. It was fortunate that control of both houses of congress went with the presidency to the same party, so that there could be no divided counsels or responsibility. It happened to be the Democratic party, but the same would have been true if the Republican party succeeded. Mr. Hughes, if he had been chosen, should have had a Republican congress. In times like these we can afford to take no chances of discord in our government, however slight we may believe them to be.

Support Has Been Nonpartisan. Republican senators and congressmen have heartily joined their Democratic associates in supporting the president in the measures required to uphold American rights and honor. I can not believe that Republican members of the congress now to be chosen would, speaking generally, do otherwise, even if that party should have a majority, instead of a minority, as it now has.

But the new congress does not meet until December, 1919. A change in its political complexion from Democratic to Republican would certainly be taken everywhere, by friends

and foes alike, as a repudiation of the president.

This is not because the new congress would be Republican, but because it would be no longer of the same party as the president.

I do not advance this argument on my own judgment alone, though I am very clear about it. I have the very highest Republican authority. Twenty years ago we had a war with Spain. The president and both houses of congress were then Republicans. The Democratic members cast politics aside and heartily joined in supporting President McKinley from start to finish. There was no stinting on their part in any respect. Hostilities had been suspended but peace was not yet made when, in 1898, a congressional election came on. So the situation was not nearly so critically as it is now.

Warned by Harrison. Former President Harrison warned the people against a change, just as I am doing now. He said:

"If the word goes forth that the people of the United States are standing solidly behind the president, the task of the peace commissioners will be easy, but if there is a break in the ranks, if the Democrats score a telling victory, if Democratic senators, congressmen and governors, are elected, Spain will see in it a gleam of hope. She will take fresh hope, and a renewal of hostilities and more war may be necessary to secure to us what we have already won."

You will note that Mr. Harrison did not charge that the Democrats were any less loyal in the war against Spain than the Republicans. He was not speaking of the election of a congress really hostile to the president, or so understood by Americans. He had in mind the interpretation which would be given across the sea.

Senator Foraker said:

"The war came while a Republican administration was in power and must now be settled by that administration."

"I do not believe any far-minded Democrat would question the fitness of the Republican party for the discharge of this duty, but however it might be otherwise, the work is already in the hands of President McKinley. What he wants is the support of a Republican house of representatives. It is the duty of Ohio to lend him this help."

The then leading Republican journal of Ohio said editorially:

"What will be the effect if a Democratic house of congress is elected. Spain will rightfully interpret it as a rebuke to the McKinley administration and a victory for her. We do not believe the American people will cast it."

Similar quotations could be multiplied indefinitely. This argument proved most effective, and justly so. Thousands of Democrats all over the land patriotically yielded to it. President McKinley's hands were upheld before the eyes of all the world. The sneaking desire of Germany to block the way of the young republic was blocked and the victory already won was made secure.

For my part, instead of shrinking from the test, I welcome this election as the first opportunity of the sovereign authority of the land to make known to all the nations and to the long oppressed people everywhere who ought to be and shall be nations, that the ballot boxes of America contain no comfort for her enemies.

THE MARKETS

Chicago Grain and Provisions.

(Associated Press Telegram)

Chicago, Oct. 30.—Fresh declines in the value of corn resulted today from new news and estimates of the American government. Other diplomatic and military developments tended also to increase bearish sentiment. Opening prices, which ranged from 1/2 to 2 1/2¢ lower, with November 1.25¢ to 1.21¢ and December 1.17¢ to 1.13¢ were followed by a decided additional setback.

Oats, like corn, gave evidence of scattered liquidation and of a lack of support. The war outlook was the main factor. After opening 1/2¢ to 1 1/2¢ lower, with November 63¢ to 65¢, the market continued to sag.

Provisions traded with grain and hogs. Most of the dealings were in hogs.

Wall Street.

(Associated Press Telegram)

New York, Oct. 30.—Stocks were heavy at the opening of today's trading, the cut in the dividend of United States Steel from three to two per cent prompting further short selling and liquidation.

The transaction comprised 1,057,000 shares, an extreme return of 2 1/2¢. Mexican Petroleum showed acute weakness, 23 1/2¢.

dropping 8 1/2 points but quickly made up the deficit.

The war division, also, copper and motors, averaged one to two points decline. Rails displayed relative steadiness under renewed inquiry for Southern Pacific and shippings also strengthened.

Fully one-third of the first hour's dealings consisted of U. S. Steel, which was in process of further liquidation down to 104 1/2¢ where it met with substantial support, rallying a large fraction. Other industrials, especially munitions, added to early declines but some of the active specialties scored irregular recoveries. Mexican Petroleum held the better part of its rebound and rails, notably transcontinentals, registered additional advances with Marine preferred. The market became dull at noon.

FIRST BLOOD ON THE NAVY.

(Philadelphia Record)

The sinking of the Tampa, with the reported loss of all hands, in Bristol Channel, is the first important catastrophe to have hit our fighting navy. Although the disaster occurred more than a week ago, details are still lacking. The fact that not a single survivor has been picked up may make it impossible to determine whether a German submarine or mine or an internal explosion was the destroying agent. The patrol boat, engaged in service duty, had gone well ahead of the other vessels, and their discovery of floating wreckage furnished all the knowledge they were able to obtain of her fate.

Even granting the possibility, which approximates a possibility, that the Tampa was the victim of a U-boat, we are still in a position to congratulate ourselves that the naval losses have been so few and inconsiderable. The navy has been engaged in service every bit as hazardous as the army, since the danger has been of daily imminence, and yet the navy's losses have been insignificant. The submarine, once a menace, has degenerated into a mere nuisance.

Why hens go on a strike!

Feed elements shake their heads and wonder why hens go on a strike. The reason is simple. They are not getting what they need. The Missouri Experiment Station tests prove that 100 lbs. of wheat, corn, oats, barley and kafir corn, make an average of 224 yolks to 154 whites. Based on similar data

AN INTERNAL TREATMENT

FOR PILES (HEMORRHOIDS)

Gives absolute relief from all pain and suffering. Has never failed. Guaranteed.

Many people have become despondent because they have been led to believe that their case was hopeless and that there was no remedy for their case.

Go to your druggist and get an original bottle of Miro Pile Remedy, the discovery of a clever Ohio Chemist, that taken internally, passes unchanged through the stomach and intestines, and then reaches the source of the trouble where, by its soothing, healing, anti-septic action, it first allays and then by direct contact with the ulcers and piles causes them to heal and disappear forever.

It's positively marvelous how speedily it acts. Blessed relief often comes in two or three days, even in cases that have resisted all previously known treatments. Really wonderful results have been accomplished. It is one of the wonderful discoveries of recent years and anyone who is disappointed with its use can have their money refunded.

Just read what Mr. F. M. Smith of 2312 Broadway, Lorain, Ohio, says: "I gladly recommend Miro Pile Remedy for Piles. There is no equal to it. I suffered for 18 years and tried everything that was recommended. I doctor for years and was a constant sufferer with bleeding piles. I took two bottles of Miro and was entirely cured. Any sufferer using it will never regret it."

All pharmacists dispense Miro or can get it for you on short notice. Surely it is worth the little trouble to obtain to be rid of piles forever.

IMPORTANT: What is known as hemorrhoids are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is necessary to take the internal prescription. (Adv.)

It isn't always because a fellow has too much of his own society that he gives himself away.

NURSING MOTHER GREATLY HELPED BY NERV-WORTH

Her Sickly Baby Also Wonderfully Benefitted by the Medicine.

Nursing mothers should read with great care the following statement, also the parents of sickly children, for Nerv-Worth is wonderfully beneficial when given to the little ones: "I was in such a miserable condition that I could not sleep. Got up in the morning feeling tired and not rested. Was all run-down, weak and extremely nervous. Had severe pains in my back. Was nursing my baby and did not feel strong enough for the task. Was uneasy as to whether I could supply enough nourishment for it. After using one bottle of Nerv-Worth I found I was gaining strength; was sleeping and resting well, eating and enjoying my food, and no trouble with digestion. My baby is strong and healthy and I notice a great improvement in its bowels which are now regular and healthy. I consider Nerv-Worth one of the greatest remedies I have ever used and especially for women in my condition. I cheerfully recommend it. I am now taking my second round and will keep Nerv-Worth in my home."

Readers' Viewpoint

Support the President.
Editor of the Advocate:—Whatever honest people may have left for Colonel Roosevelt after reading his recent telegram to Senators Lodge, Johnson and Poindexter, should be sent to him without delay, lest he should grow faint and weary in his peculiar and particular hostility to President Wilson and all his words and work.

And if these Senators consider themselves complimented or honored or edified by having such a fulmination thus publicly addressed to them, the Lord have mercy on their souls, for they ought to know, if they do not know, he, too, ought to know, that in all Mr. Wilson's responses to the recent German peace proposals, he has kept in touch with the governments of England, France and Italy, and that he has spoken for them as well as for the government of the United States.

Nay, more, they ought to know that if Mr. Wilson had answered the first communication of the German government, or what purports to be that government, with a curt and abrupt demand for unconditional surrender, as they claim he should have done, it would have been an egregious, almost an unpardonable blunder on his part, and would have been so to that government, for its effect would have been to rally the entire German nation around the throne of the Hohenzollern family, whereas Mr. Wilson's skillful diplomacy, as we have good reason to claim, has opened the way for the political revolution which must take place in Germany before the world can be at peace again.

And that revolution, Oh, my countrymen, has already begun to revolve as surely as the earth revolves around the sun from year to year, and as surely as suns and stars are running their courses through the heavens from everlasting to everlasting. And that revolution, we may rest assured, will continue its onward course, until it deposes Kaiser Wilhelm and sends his infernal war machine, the Lord knows whither and where.

If Mr. Wilson had answered the first German proposal in such a manner as to please these senators and Mr. Roosevelt, assuming that he could be pleased with any word or act of Wilson's, the declaration of a distinguished Frenchman—was it Talleyrand?—concerning a particular line of action adopted by his government many years ago would have been exceedingly applicable to this case: "It was worse than a crime, it was a mistake."

Mr. Lodge and his fellow senators, do not need to be informed that in actual warfare in very many cases—perhaps in a majority of cases—an army commander must needs outflank the forces of his enemy before making a direct attack upon them. The same principle applies in the field of diplomacy; and in this field President Wilson, in complete agreement and harmony with our allies, mind you!—has not only outflanked his German enemy, but has surrounded him on all sides, so that he must either prolong the fight to his complete destruction or comply with the demand for an surrender.

Can you tell us, Mr. Editor, how these distinguished senators, whose patriotism no man can question, notwithstanding their very erroneous judgement concerning this particular matter, could allow Mr. Roosevelt's telegram, with its base and utterly unfounded insinuation that the President of the United States is not wholly committed to the cause of his government and its allies, to be thus publicly addressed to them, without giving it the public reply, which it plainly calls for? Also can anyone tell why Congressman Fessenden was not "recognized" by Mr. Roosevelt in the same manner as the three senators in question? MILTON R. SCOTT.

Liquor and Soldiers.

Editor of The Advocate:—The liquor forces, as a last resort, have been circulating the insidious report that whiskey is being shipped to Camp Sherman to dope soldiers against influenza.

Major James T. C. Duvall, camp adjutant, issues the following denial to Harry Holcomb, camp pastor at Camp Sherman: "There is not a word of truth in the statement that carboys of whiskey are being shipped and used to counteract the epidemic at Camp Sherman. An offer was made to furnish whiskey and was EMPHATICALLY REFUSED."

The prohibition amendment is aimed against liquor as a NECESSARY, and does not prohibit use for medical purposes.

PALMER IS PROMOTED IN TRANSPORT CORPS

LIEUT. F. C. PALMER.

In a letter received yesterday from Lieutenant F. C. Palmer, written on October 12, he tells of having been made first lieutenant. Lieutenant Palmer has been transferred from the quartermasters' corps to the motor transport corps and his new rank is with that organization.

In the letter received by his parents, Mr. and Mrs. W. H. Palmer of the Granville road, he tells of his promotion and of a recent trip made to Paris. Lieutenant Palmer has been traveling over France and has been in some part of Italy. His address now is Lieut. F. C. Palmer, M. T. C. B. S. P. D. No. 2, A. E. F., A. P. O. 772, France.

WANT MEN ON WAR WORK LIST IN NEWARK

Employers of men in non essential trades and industries in Newark have been asked by the Licking County Community Labor board to surrender all male employees to the great need of help in essential industries having war work, according to announcement made by the board today. The board is composed of Messrs. C. H. Stull, W. H. Cocomar and George Pickup. It is the duty of this board to transfer to the essential list all those now employed in non-essential labor.

It will be necessary therefore to curtail every line of activity that does not have to do with the war program, and this is a patriotic call to all employers of labor, whether skilled or common, to release where possible those employees who are not now in these essential war work.

Non-essential work includes some such vocations as the following: chauffeurs, waiters of all kinds, clerks in hotels, shoestores, clubs, cigar stores, poolroom attendants, ushers of all kinds, floor managers in stores, and all other positions which can be filled by women.

Applications for essential war work may be made at the U. S. Employment office, 36 South Second street.

Look, papa! The brewery is running! Will people die unless they have beer?

Schools were closed for weeks last winter, churches discontinued services and many factories, making ESSENTIAL products, were forced to suspend operations owing to lack of coal.

Men, women and children suffered in cold homes. Yet, BREWERIES went on consuming coal to make a product that does nobody any good.

Breweries burned more than 3,000,000 tons in 1917 while America's WAR preparations were seriously CRIPPLED by coal famine.

The liquor traffic is a MENACE in time of war and in time of peace. Abolish it now and forever.

DON'T FEAR FUEL SHORTAGE IN CITY

Dealers Here Say Majority of Domestic Consumers Have Winter's Supply in Cellars.

According to local coal dealers Newark coal bins are more bountifully supplied than ever before at this season of the year. All during the hot months of the past summer the dealers have had a capacity business and as a result of this early buying on the part of the home-owners hundreds of families are assured of a comfortable winter. A year ago the heads of these same families were making daily trips to the coal offices in vain attempts to secure "just a half ton to keep from freezing."

Some few individuals are as yet without adequate fuel because of the fact that they have refused to accept as final the notice of the fuel administration that Newark and Licking county would be allowed no further shipments of anthracite and that the dealers in local territory would be allowed only coal from Ohio fields. While the local dealers anticipate no such experiences as those of the past winter and expect to be able to fill orders within a few days after they are placed, they are unable to give any very definite estimates of the percentage of consumers whose entire needs have been met, because of the fact that the notices and regulations indicating a gas shortage have caused residents who have used no coal in the last 10 or 15 years to lay in a supply for emergency use. At the present time there is but a small reserve supply of domestic coal in dealers' yards, but shipments have been coming through from the mines with promptness. The consensus of opinion among the dealers is that Newark is remarkably well-supplied with coal and should experience no decided shortage if the railroad movement continues to be good during the next few weeks.

NEWARK MAN'S

(Continued From Page 1)
but all at once the whole world seemed to crash, and the sky seemed to blaze. "It was the opening of the artillery all along the line. We got into our place in good time and sat there watching the awful barrage, waiting for the order to go over the top. Everybody was copping wet and cold. "We were on high ground, and the sky was on fire and the roar from the artillery was terrific. "Just before daylight we jumped off. I was scared half to death, not about myself but whether my men were ready for so hard a work as that they should.

"Well, it seems like the Boches all had run back to Berlin, for we didn't see one. We went on across the German trenches and then we began to run into German machine gun nests. Well, our men ran through them and there was never a hitch in the whole thing. I don't mean to say that we had no casualties, but they were few. It was my company that really got into the worst barrage the Germans put over. It was awful but didn't last long. We had more casualties than any other unit. My captain was pretty badly hurt so I am in command of the company.

"A great deal of this fight was just fun for our men. You ought to see

them bring in prisoners. The German would sit and fire his machine gun as long as he could. Then some Yankee would get up behind him and fire just one shot. If he didn't kill the German, the Boche would point his gun in the air and come out with his hands up. They surrendered very easily. Lots of times we would come upon a bunch that had thrown down their arms long before we got to them. "In one case two men captured 150 Germans and marched them in. The worst we had was a woman operating a machine gun. She shot two of our men before we captured her and afterwards she claimed she was a Red Cross nurse, but that old gag didn't go with us. "In another instance, a Yankee private captured a colonel and his horse. The Yank made the colonel pile off and walk on while the soldier got on the horse and marched the colonel in. Gee! but the colonel was angry. It was nothing to see a Yankee coming down the road with German boots and a German helmet on and fire six German rounds at him. The Germans are not near the fighters our boys are, as a rule. Most of the Boches we got were kids or old men. We met a lot that could speak English. "One thing I saw was a son-of-a-gun who sat and fired a machine gun as long as he could and then when he saw we were all around him he came out with upraised hands and said: 'Don't shoot, boys; I'm from Hoboken. One of our boys said 'I'm sorry, old man, but you're on the wrong side of the pond,' and 'bumped' him off. "That's the way they do, shoot as long as they can then when we get all around them, they yell 'kammerad.' Taking it all in all, it was a big success and our division surely made a name for itself. We didn't have one-third the casualties we expected. "Gee! it is good to get back where one can get his clothes off and take a bath. It was three weeks since I had my clothes off and about five since I had a bath. "But we have plenty to eat, that is when it is possible to get it to us. Of course, during a drive, we can't get stuff to eat so sometimes it is three or four days that we have to eat what we can find. "Before mailing the letter, Lieutenant Jones added a paragraph saying that his company had been ordered out on a special detail. He had just been handed a bunch of mail, but had to postpone reading the letters until the next day.

TRAINED NURSE GIVES RECIPE FOR GRAY HAIR

Give Recipe for Simple Home-Made Remedy That Quickly Darkens It.

Mrs. A. Dixon, a well-known Brooklyn trained nurse, made the following statement regarding gray hair: "Struck, faded or gray hair can be quickly turned black, brown, or light brown, by the use of the following remedy that you can make at home:

"Merely get a small box of Orlex powder at any drug store. It costs very little and no extras to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box.

"You need not hesitate to use Orlex as a \$100.00 gold bond comes in each box guaranteeing the user that Orlex does not contain silver, lead, zinc, mercury, aniline, coal-tar products or their derivatives. "It does not rub off, is not sticky or gummy, and leaves the hair fluffy. It will make a gray-haired person look twenty years younger."

CONCESSIONS TO FLU VICTIMS.

Associated Press Telegrams—Washington, Oct. 30.—As an aid in fighting the influenza epidemic the food administration today telegraphed the federal food administrator of each state the information that where necessary extra sugar allotments for patients and those caring for them are to be allowed.

HIS "NEW" TIN HAT

WILLIAM VICTOR MILLER,
Son of W. M. Miller of Dresden, Receiving His Steel Helmet at the French Front.

LOCAL SOLDIERS WITH EIGHTY-THIRD DIVISION ENCOUNTERED SUBMARINE

News that an English transport, containing Ohio artillery troops, and among them a number of Zanesville boys, was struck by a German submarine in crossing, has only recently filtered through the censors. The men who left Camp Sherman June 28, were with these troops and among them were Colonel Simeon Nash of this city and Columbus; William Victor Miller, a son of William M. Miller, Dresden, and Paul Hawk, a son of the Rev. Mr. Hawk of New Lexington.

When in the Irish sea an enemy submarine passed under the convoys and came up directly under the bow of the English transport on which the men of the 136th field artillery had passage and knocked a hole in this ship. The siren alarm was given and the men took to the lifeboats in orderly manner; however, the lifeboats were not lowered. The stricken ship plunged ahead and rammed the submarine, and depth bombs were dropped on her from other ships in the convoy. The American boys acquitted themselves with distinction. With heads up they sang the "Star Spangled Banner," "America," and "Onward Christian Soldiers," and

when it was learned that one more U-boat had found its grave in the bottom of the sea there was great cheering.

The stricken ship reached port at Liverpool under its own power and the greater portion of its human cargo was unloaded before she settled to the bottom in a bed where she could be easily recovered.

Batteries A, B and C of the 136th field artillery are made up of Columbus boys.

[I am proud of this boy, my only child, who voluntarily enlisted April 4, 1914, two days before the United States declared war.—W. M. Miller.]

WILLIAM M. MILLER,
[Editorial from the Zanesville Times Recorder.]

William M. Miller of this county is the Republican candidate for state senator in the Fifteenth-Sixteenth Senatorial district, comprising the counties of Muskingum, Perry, Licking and Delaware.

William M. Miller is admirably fitted to represent this county and district in the upper house of the state legislature. None has led a more active life or is better acquainted with the needs of all classes of citizens of the district than he. As a farmer, a railway section worker, a printer, a newspaper publisher and a business man he has been in active touch with every phase of business and civic activity.

He is an untiring worker, fearless, outspoken, and will accomplish more for the district than any man who has ever represented it. He can join hands with both labor and capital and work for the real interests of both. The Times-Recorder enthusiastically indorses the candidacy of William M. Miller and asks all good citizens to support him at the polls, Tuesday, Nov. 5.

RED CROSS HAS NEED FOR MEN AND WOMEN

Many Positions in This Country and Abroad to Be Filled From Civilian Rank.

An urgent call for men and women, needed in the various activities of the American Red Cross, has been sent out by the headquarters office of the lake division. The help is needed at the various military camps and cantonments and in the headquarters offices, and the demand is so general that practically every line of work is included. In the military camps men are needed to help soldiers who are worried about their families and family affairs, by communicating with their homes through local Red Cross organizations in every part of the country, to visit, cheer up and encourage the men in field hospitals by communicating with the families of soldiers, and if necessary, furnishing emergency supplies when called upon to supervise the distribution in camps and cantonments of all Red Cross supplies, such as comfort kits, sweaters, socks, etc.

At national headquarters men and women, and in other large cities men thoroughly experienced in commercial office practice along menial business lines, capable accountants and accounting clerks, qualified buyers of drugs, medicines, surgical instruments and hospital supplies, also men to serve as hospital supply clerks, trained and professional newspaper men and women, and directors for publicity work, competent stenographers, secretaries and clerical workers in all departments. Salaried positions pay in accordance with the experience of the applicants. Workers going to Washington are assured of good homes. There are opportunities for persons work also. Applicants should address their communications to Bureau of personnel, American Red Cross, headquarters, Lake Division, Cleveland, or to the Washington headquarters.

KIRKERSVILLE NOTES.

Word has reached the people here that Frank and Byron Roly, in service, have both convalesced nicely from the Spanish malady.

S. F. Timmons visited Camp Sherman last week and found his son Clarence in the best of health.

Oran Walker's mother from Urichville returned home Saturday from a short visit here with her son and family.

Fred Mason of Columbus visited his parents here over Sunday.

Mr. McKnight, grandfather of the barber, Emmet Smith, died the last of last week. The remains were shipped to his former home in West Virginia. Mr. and Mrs. Ross Anderson of Centerville were the guest of his brother, L. O. Anderson, over Sunday.

T. B. Clark, McPuch & Chase learned the household goods of Charles Wolf from the West farm east of the village to his new farm near Hartford.

Mr. Wolf was not only a good farmer but a very valuable citizen and has left a host of friends in this section.

CATARHIAL DEAFNESS MAY BE OVERCOME.

If you have Catarrhal Deafness or are even just a little hard of hearing, or have heard noises, go to your druggist and get 3 ounces of Burman's double strength, and add to it 14 pint of hot water and a little granulated sugar. Take 1 full teaspoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should be kept open by blowing nose easy and the mucus should give the prescription a trial. T. J. Francis, (Ad.)

Don't burn the candle at both ends in an effort to make light of your troubles.
